

THE HAVEN PRACTICE

Publication of GP Earnings 2016/2017

All GP Practices are required to declare the mean earnings (e.g. average) for GPs working to deliver NHS services to Patients at each Practice.

The average pay for GPs working at The Haven Practice in the last financial year (2016-2017) was £39,306.00. This figure is pre Tax, National Insurance, Employee Pension costs and after expenses.

This is for 2 part time GPs and one part time locum GP who worked in the Practice for more than 6 months.

It should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time Doctors spend working in the Practice, and should not be used to form any judgement about GP earnings, nor to make a comparison with any other Practice.
