

Important Notice for Patients

Clinical Practice Medical School Students

This surgery is working in partnership with Brighton and Sussex Medical School. As part of their training, students will attend some clinical appointments to gain practical experience in the treatment and care of patients.

If you would prefer not to have students present during your consultation or to speak with you whilst you visit your GP, please let a member of staff know.

Your care will not be affected by your decision.

Applicable from September 2023 to June 2024
