I have had various phone appointments and in person appointments with dr Alex Tate, and I've found her very grumpy and almost sighing during appointments, not a comfortable environment and seems uninterested. She's not a bad person I'm sure, but I found it quite uncomfortable.	
Dr bidwell has always been great and very welcoming, kind and understanding.

I had a really good conversation with Karishma. She had arranged for me to have an ECG and my routine blood tests. She gave me all the results and explained anything I was uncertain of. I am so impressed with the service I have received from her. I was invited to a medication review 5 months ago. In this I said that I wanted to reduce my medication for HBP. She identified which medication would be the most sensible to stop. She then proposed a stepped approach to reduce this with monitoring. We have now completed the process successfully and I have been totally reassured that there have been no ill effects.	Nothing.

Speed of reception, quality of service.	

I felt very dismissed and not taken seriously especially about such a serious topic. I felt that words were put in my mouth by the doctor regarding how I felt about certain medication and was dismissed from this despite only saying that I was only unsure about it

The Haven Practice is run very efficiently, with all staff friendly and professional from the moment I approach the receptionist through to my appointment time with the Doctor.

As an important independent Doctor's Surgery, I value this practice extremely highly. In all my decades of attending here, I have never had reason to doubt their care & professionalism. I would hope, if they could find things to do better, then they would remedy them in a way that has the least detrimental effect on their staff and patients.

I dont know.

Sad the surgery is moving to bigger premises

Doctor didn't listen, didn't seem interested and damningly, didn't care.

Listen to your patients when they tell you they're in pain then provide them with some remedy. You know - do your job.

Doctor listened and was caring

Nothing

All good, problem sorted quickly

All good

I was offered an earlier appt. It was just a vaccination. Receptionist friendly & nurse also friendly.

Not really!

The pharmacist gave me clear and helpful advice.

Good service

Everything is good

Doctor did not listen to me. Seemed uninterested and unempathetic. Didn't give me a word of advice and seemed to be trying to hurry me out of the door.	Listen, empathise, make an attempt to understand the problem or give a diagnosis or refer if necessary. Try to avoid coming across as bored or as if your patient is wasting your time.
